Dear Mr McKinney

Your solid waste disposal facility located west of Decatur was inspected on November 20, 1978, by Les Frankland, representing this Agency

The inspection disclosed the following condition(s) which constitute violations of the Environmental Protection Act and Chapter 7 of the Illinois Pollution Control Board Solid Waste Rules and Regulations

An inadequate depth of daily cover was observed in an area located along the northern and western slope of the active area

Wind blown litter was observed along the eastern border All litter should be collected from the sanitary landfill site by the end of each working day and either placed in the fill and compacted and covered that day

Your early compliance in this matter will be appreciated In the event that you have any questions regarding compliance, please feel free to contact Les Frankland or me at the above number

Sincerely,

Monte M. Mienkirk, Central Regional Manager
